

**Content Management & Archiving**

**A Free PixTools .NET Toolkit promotional offer to help you deliver competitive products in spite of budget and resource cuts!**

As a leading OEM partner, EMC helps commercial software developers like you to embed information capture and content management tools into existing products and applications. By embedding EMC tools and technologies, you'll be delivering better solution offerings, reduced R&D costs, and accelerated time to market new solutions. No need to worry about costly scanner compatibility testing and troubleshooting because EMC Corporation has already done that for you!

Leverage best-in-class EMC document capture technologies and begin adding the value to your products that will set you apart from the competition. This [free PixTools .Net toolkit](#) promotional offer is now yours (a \$2995 value for you)!

The toolkit license provided with this offer permits one user to develop any number of software applications. This is a limited time offer that does not include runtime licenses or support/maintenance. Please contact EMC for price/license information.
